I am a positive, ambitious and flexible person seeking a position that matches my ambitions and goals in life. I graduated with a first-class honors degree in Information Systems Management from GMIT in 2017. I have a vast and extensive knowledge in the technology sector including but not limited to HTML, CSS, SQL, MYSQL, C#, Microsoft Office Applications, JavaScript, Python, Cloud computing and Networking. I have a deep love for technology and a passion for learning.

EXPERIENCE

JUNE 2019 – JUNE 2020
DATA ANALYST, FLAHERTY MARKETS

I was put in charge of data and information entering the company. My job entailed extracting raw data from the ERP system, Intact software, and transferring that data to Microsoft Excel in order to clean the data and then use Microsoft Power Bi to visualize the data for the key stakeholders within the company. I used VBA and python in my day to day activites. I also used my own initiative to develop a stock database within the company, for this I used MYSQL and SQL queries.

NOVEMBER 2016 – JUNE 2017
CASHIER, PADDY POWER

I worked as a cashier and attendant in the Paddy Power branch in Claremorris. For this, I was tasked with handling cash and transactions on behalf of the customer. I followed hygiene and safety requirements to a high degree in order to provide the best experience to the customer. Dealt with any complaints from the customer and communicated on a regular basis with the head office in Dublin.

EDUCATION

SEPTEMBER 2017
BACHELOR OF ARTS IN INFORMATION SYSTEMS MANAGEMENT,
G.M.I.T GALWAY

I achieved a first-class honors degree. The course entailed programming and database management techniques. I developed a love of programming and problem solving in this course. My final year project entailed making a back-end database application for a dental surgery. This was to be used with a custom frontend that enabled all stakeholders in the surgery to accept appointments and check a virtual calendar which had all the information available. I used SQL queries extensively throughout the project and used a MYSQL relational database to hold the information.

JULY 2020
DIPLOMA IN FULL STACK WEB DEVELOPMENT, CODE INSTITUTE
I am currently undergoing a remote online diploma from Code Institute if Full Stack Web Development. I have just finished my first project on Front-end Development and my project can be viewed on GitHub.

SKILLS AND CERTIFICATIONS

- Certified AWS Solutions Architect Associate.
- Comptia Security + certified
- Analytical minded
- Cloud Computing

- I have experience in freelancing and remote work, in web design.
- MySQL, MSSQL, Mongo DB
- Python, HTML, CSS, VBA, JavaScript
- Critical Thinking and decision-making

ACTIVITIES

- Sport: I live and breathe sport. I am a keen GAA footballer for my club, I have a deep love for Tennis and horse-racing. In my spare time I trade Horse-racing.
- Upskilling and Education: I am always trying to learn new things and find new ways of looking at problems. I am currently aiming to improve my programming skills and start off a web development venture.
- Reading: Psychology is another big interest I have. I love finding out more of the way we think as humans and how elite sportspeople deal with pressure.
